

DIAMONDS ARE FOREVER TAKES TO THE WATER

A glorious day at the Benetti shipyard in Viareggio, Italy, for the pre-launch of quad deck 61m **DIAMONDS ARE FOREVER**, on schedule for her official launch to be available for charter through Ocean Independence from December 2011.

Sparkling in the early Autumn Italian sunshine this week, as she took to the water, 61m **DIAMONDS ARE FOREVER** features a signature Evan K Marshall interior. The design synergy created through the longstanding owner designer relationship has resulted in a superb layout and sophisticated styling focusing on a full service guest concept for the charter market.

Comprising of two panoramic master suites and four guest staterooms. A guest elevator to all decks, a full beam sky lounge and vast open and shaded deck spaces. Of particular note is the additional top deck,

located above the sun deck, which forms a very private, panoramic deck which is also served by the central elevator. The aft part of the sun-deck also allows easy touch and go helicopter operations.
